

# Enterprise document imaging for business process efficiency

## eCopy ShareScan® Suite™

With ShareScan Suite software, office workers can use their multifunction peripherals (MFPs) to scan documents securely and seamlessly into business applications that support electronic business processes. It provides a consistent, easy to use interface across any capture device, promoting user adoption and increasing the value of enterprise hardware and business software investments.

The software offers native integration to leading document management, e-mail, fax, database, collaboration, and cost recovery software applications.

### What's included in ShareScan Suite

- **ShareScan** connects your MFP to your organization's networked enterprise applications for easy to use, secure distribution of paper-based information.

ShareScan Suite includes all of the components an organization needs to save time, reduce costs, and increase business results through an automated solution that securely puts paper documents directly into their electronic workflows.

- **eCopy PaperWorks™** is easy-to-use desktop document imaging software that enables business professionals to convert electronic and paper documents into text-searchable, secure PDFs and directly include them in business applications and workflows. eCopy PaperWorks provides office workers with advanced tools to scan, merge, modify, and connect documents with the software they use every day.

- **eCopy Connectors and Services** link eCopy-enabled devices with software applications to give users the ability to scan directly to those applications. eCopy ShareScan Suite includes Connectors\* and Services to applications such as:

- Open Text Fax Server (RightFax)
- EMC® Documentum Content Server®
- iManage WorkSite (formerly Interwoven)
- Lotus Notes
- Microsoft® Exchange
- Microsoft® SharePoint®
- Open Text Livelink ECM
- Open Text Livelink ECM - eDOCS DM™
- eCopy Quick Connect™
- Cost Recovery Applications
- Bates Stamping

Additional Connectors to business applications are available.

\*Connectors vary depending on MFP brand.

*A familiar and intuitive user interface assists the user in quickly sending scanned documents to their destination.*

*\*Image is the ScanStation™ configuration. MFP touch screen user interface varies by device.*

Table with 2 columns: 'When Businesses need to:' and 'ShareScan Suite delivers:'. It lists various business needs like 'Integrate paper documents into electronic business processes' and the corresponding features provided by ShareScan Suite, such as 'Real-time, dynamic integration with document management'.

ShareScan Suite is available in two configurations:

- eCopy ScanStation includes a freestanding touch screen and keyboard that connects easily to any scan-enabled MFP. The ScanStation includes all the hardware and software required to run eCopy ShareScan.
• A software client for select MFPs, enabling eCopy ShareScan to be accessed from the MFP's touch screen, and server software.

Device compatibility

For the latest supported platforms for ShareScan Suite, please visit:
